BISBEE, ARIZONA, SATURDAY MORNING, JUNE 8, 1912

NUMBER 25.

TAFT GIVEN TWENTY FOUR COLONEL TWO

President Wins Overwhelmingly in First Day's Hearing on Contests

ARIZONA CONTEST WAS POSTPONED

Senator Borah Demands Roll Call Whenever Eight Request One

CHICAGO, June 7.—Twenty-four delegates from Alabama and Arkansas were added today to the Taft column by the action of the republican national committee upon the so-called Roosevelt contests in those states. All the contests but two presented to the committee today were decided in Taft's favor. The decision was unanimous, although on a roll call test there were fifteen anti-Taft votes. The cases decided were those of the six delegates at large and two each from the six congressional districts of Alabama, and four delegates at large and two each for four districts of Arkansas. There remain to be heard Arkansas contests in four districts.

The contests over the six delegates at large from Arizona were postponed on motion of Committee on Penrose, of Pennsylvania. In view of the bitter feeling between Taft and Roosevelt adherents, the meeting was surprisingly peaceful, although it opened with a contest which seemed to forecast a degree of friction.

Borah insists on roll call. The contest arose over the renewal of the committee on labor, of his motion of yesterday, which would permit only eight members of the committee to demand a roll call instead of twenty, as provided by the rules. The ruling of Chairman Roosevelt declared the Borah action undebatable.

"I don't intend to choke on the gas this early in the campaign," said Borah, "and I will either have my say here or I will occupy such a position that this convention will make no progress."

The committee proceeded to table the Borah motion by a viva voce vote, and then Borah was permitted to continue. Borah then went on to tell the chairman a few things. He said they would make no progress, and he knew the steam roller was there, and added that he was willing that the roller operate, but he wanted to say that men who have not the moral courage to record their vote before the people of this country are not worthy to represent the great republican organization in the United States. "Men who have not the manhood to stand up here and state for whom they are going to vote, are evidently acting as they were bade," he said.

Ruled Out of Order. The chairman ruled the gentleman from Idaho out of order, and when Bartholdt said there was nothing before the house, Borah continued: "I am before it." Bartholdt asked for unanimous consent that Borah be permitted to proceed in order that the proceeding should be made parliamentary.

It was made plain soon after this, even though Borah's motion had been tabled, that the majority intended to give the minority a roll call on demand on any question. Penrose, Cline and others of the Taft faction repeatedly joined Borah and his colleagues in the minority in asking a roll call, and always got it. A test vote came in the case of the ninth Alabama district, in which the Taft delegates were seated by a vote of thirty-eight to fifteen.

COMMERCE COURT HIT BY SUPREME COURT

Interstate Commerce Commission Jurisdiction Is Upheld

WASHINGTON, June 7.—Blow after blow was given the new commerce court today by the supreme court of the United States which upheld the executive judiciary of the interstate commerce commission over the administrative machinery of federal rate laws.

Senator Poinsett today introduced a resolution to discharge the commission of commerce from further consideration on the bill to abolish the commerce court in order to bring the measure before the senate for a vote. No action was taken on the resolution.

WILL BE SENT TO CHICAGO

SACRAMENTO, June 7.—Extradition papers were issued by the governor's office today for the return from Los Angeles to Chicago of S. A. Hayner and J. H. Conates for passing alleged bogus checks.

ARMY READY TO HELP NAVY

U. S. Troops Ordered to Be in Readiness for Voyage to Cuba

TRANSPORTS READY

WASHINGTON, June 7.—The army took steps to share with the navy in the American demonstration in Cuba today. The general staff gave a preliminary test to the machine it has constructed when it issued to the quartermaster general orders to put in readiness for Cuban service four big army transports at Newport News and at the same time notified the various army posts where are located the organization which go to make up the "expeditionary force," to have all men ready to embark at a moment's notice. Within six hours word came to Quartermaster General Aleshaire that the transports had been put in commission with full supplies of coal and augmented crews, and were ready to sail the moment the troops were on board.

The orders to the transports to sail or to the troops to embark were not given, and it is said word would not be given until the marine forces now being distributed through eastern Cuba have proved inefficient to protect the threatened plantations, or conditions on the island had assumed such a phase as to demand intervention.

Intervention must follow in the regular way if the United States decides to follow the injunction laid by the judge advocate of the general army. Warnings have to be conveyed to the titular government of Cuba, and every effort must be made to induce it to exhaust its own resources for restoring order. Some of these steps have already been taken.

The issuance of a proclamation by President Taft is all that is necessary to meet the legal requirements preliminary to intervention. Whether the step shall be taken depends on the ability of Cuba to deal with the situation.

Sixty marines were landed ten miles west of Santiago last night. The Paducah, which performed that service, is now at Santiago, with eighty-five marines embarking for the protection of life and property at Sitones and Daiquiri.

Late today a message was sent to Fort Russell, Wyo., to have the signal corps in readiness for a possible voyage to Cuba. The company consists of one hundred men, who are mounted and carry a full equipment including field wireless sets. An ambulance company was also ordered to prepare for the trip.

FUNDS VOTED TO GOMEZ.

HAVANA, June 7.—The house ratified today the action of the senate Tuesday in authorizing President Gomez to expend \$1,000,000 to cover extraordinary military preparations. No further action was taken by either branch of congress for granting further credit.

The publication in the afternoon papers of dispatches stating that the war department would send five thousand troops to Province Oriente created a profound sensation. The government is still without news from the zone of hostilities in Oriente, beyond reports of trifling skirmishes. Rumors are making the movement of troops impossible and greatly impeding telegraphic communication. It is rumored that General Montenegro disgusted with the failure of attempts to force the insurgents to accept command and intends to resign. The presence of American forces in the vicinity of Guantanamo has apparently no deterrent effect on the insurgents who last night attacked and burned a village eight miles from Guantanamo. President Gomez issued a proclamation tonight condemning the tendency of the press to print false and sensational news inciting against racial antagonism and appealed to all citizens, black and white to rally to the support of the government.

FARGO FIRE ANNIVERSARY

FARGO, N. D., June 7.—Fargo today observed the anniversary of the great fire of 1893, which almost completely wiped away the city, but which has since been regarded as a blessing in disguise as the city was rebuilt on a more substantial basis and has enjoyed an era of great prosperity. The fire was one of the most disastrous ever suffered by any city in the northwest. It swept over an area of forty-two city blocks and destroyed property valued at more than \$3,000,000.

TELLS OF RAID ON MADERO PAPER

LOS ANGELES, June 7.—The story of the raiding of the El Regeneracion, a Mexican newspaper said to have been published in Los Angeles in the interest of the Madero revolutionists, was told in the federal court today at the trial of Ricardo Flores, Magon and others charged with violation of the neutrality laws. A secret service agent on the stand declared that gun play was nearly required to obtain possession of a mass of alleged incriminating papers and letters said to have been owned by men accused of crimes along the Lower California border.

OBSTRUCTIVE TACTICS USED IN DARROW CASE

Lawyers Lock Horns Over Questions Asked Franklin, Who Loses His Temper

TART ANSWERS DRAW REBUKE

Witness Made to Illustrate with Currency How He Concealed It in His Hand

LOS ANGELES, June 7.—The entire day in the trial of Darrow for alleged jury bribery was one of obstructive tactics, the defense and prosecution alternating in blocking and opposing counsel's attempt to elicit new facts from Franklin, who was on the stand. The entire session otherwise was monotonous. The day was enlivened by frequent verbal encounters between Assistant District Attorney Ford and Attorney Appel of the defense.

Franklin showed the first effects of his long ordeal during the last hour of the day when Ford characterized the quizzing of the witness by Appel as a verbal "third degree" designed to take an unfair advantage of the witness' fatigue. Franklin exhibited temper on several occasions and after repeated questions as to his reason for pleading guilty to the charge of bribery, made a lengthy and somewhat dramatic statement of how he succumbed to pressure brought to bear against him.

He denied repeatedly that he was made any promise by the prosecution of immunity or anything else for giving testimony against Darrow. The witness told how he had been informed by LeCompte Davis that it had been arranged for him to get a sentence of two years in the penitentiary if he pleaded guilty of bribing Lockwood.

"I went home and told my wife," declared the witness, "that the time had come for me to make up my mind what to do and that I thought the proper thing was to bear the burden myself and protect that man sitting beside you," and at this point the witness pointed at Darrow and almost in the same breath offered an apology to the defendant, saying he didn't mean to make the statement offensive.

"When my wife told me it was the right thing to do," continued Franklin, "and that she would take the children out of school and work her fingers off if necessary to keep things going until I got out, I then went to Mr. Adams, a friend and an attorney to see what arrangements could be made in my case."

The defense sought to draw from Franklin the substance of his conversation with Assistant District Attorney Ford, Edwin Dugan, deputy United States marshal and others with whom he talked concerning turning state's evidence but the efforts met with little success owing to objections by the prosecution, coupled with evasive maneuvers by Franklin, whose long grilling on the stand apparently had not dulled his wit but seemingly increased his belligerent attitude towards the counsel for the defense.

On one occasion the witness was admonished for a sharp retort to Appel, the judge telling him to be more careful in his replies. Franklin contradicted the testimony of Lockwood, who had preceded him on the stand in one particular. Lockwood testified that after the alleged bribe money had been passed to him in the street, Franklin had told him not to look behind. The witness denied he uttered such a warning to Lockwood.

Franklin today again handled the four thousand in currency which he said he received from Darrow to corrupt Lockwood after the latter had been drawn as a juror in the McNamara case. Later Franklin was asked to illustrate how he had concealed them in his hand. The money was not offered in evidence and the illustration was stricken from the record on objections by the defense.

ALASKA VOLCANO ACTIVE.

CORDOVA, Alaska, June 7.—Volcanic ash is falling thickly over the city, showing that the heavy cannonading heard in the mountains all last night was the noise of a volcano in action. The time between the cannonading and the fall of the ash here was so short that it is believed the volcano is either Redoubt or Illiamna mountain in the Lake Cook inlet country.

MANY VOLCANOS IN ALASKA

SEATTLE, June 7.—There are a many great extinct and smoking volcanoes in the mountains of southwestern Alaska, and geologists say the eruption reported as heard at Cordova may be an old volcano suddenly become active, or possibly a new one.

METAL MARKET

NEW YORK, June 7.—Standard copper dull. Spot and futures 16.50 to 17.25. Lead quiet.

TWO WAYS OF GETTING SUNDAY RECREATION

INCORRECT METHOD

CORRECT METHOD

REBELS WIN FIRST SKIRMISH

Federal Outposts Driven Back as They Advance Toward Chihuahua

NO LOSSES REPORTED

CHIHUAHUA, June 7.—The federal outposts advanced too far north today and were driven back after a sharp skirmish with 200 rebels under General Carranza, a few miles south of Santa Ysabel and 45 miles west of here. The federalists, sixty in number, escaped without loss. They are believed to be a part of the column under General Rabago. Colonel Raoul Madero, a brother of the president is reported to have succeeded to the command of the men with Rabago. He was formerly under General Villa and was arrested after the Carranza rebellion. More troops were sent westward from here today to reinforce the columns under General Carranza and Colonel Terrazas. The rebels have nearly 2,500 men along the line of the Mexican N. Rthw. station west of the city.

Cruz Ortiz of El Paso said to be a citizen of the United States, was placed in the Chihuahua penitentiary today, charged with being a federal spy. Marion Letcher, the American consul here, demanded of General Orozco that Ortiz be set at liberty. Senator Belles Torres claimed to be a representative of a certain faction of the Mexican congress that desires to treat with the rebels was arrested and ordered held just as he was about to board a train for Juarez today. He is alleged to be a government spy.

ARRESTED FOR SMUGGLING CHINAMEN

SAN FRANCISCO, June 6.—Captain Adolph Adolphson, skipper of the abandoned launch Earl K., which was beached last Saturday night in Half Moon Bay, was arrested today. He is charged by the federal authorities with having smuggled 38 Chinese from Ensenada. The profits of the trip are estimated at \$18,000.

COL. STONE ASKS POLICE PROTECTION

Republican Sergeant at Arms Fears Intimidation of Committee

CHICAGO, June 7.—Colonel William F. Stone, sergeant at arms of the republican national committee appealed tonight to Mayor Harrison for police protection tomorrow at the sessions of the committee which is conducting the contest hearings.

Colonel Stone said the action was prompted by reports that certain Roosevelt leaders had prepared to take steps to intimidate the membership committee deliberations. Other members of the committee said they had heard reports of a planned Roosevelt demonstration in the committee room during the hearings.

Senator Dixon, Roosevelt's manager declined to discuss the reports when the matter was called to his attention. Congressman McKinley, director of the Taft bureau said William Flinn of Pittsburg, a Roosevelt leader, had been informed was expected to start the trouble.

AMERICAN KILLED IN HONDURAS

WASHINGTON, June 7.—Attorney Frederick Pierpont Shaw, a representative of the Chicago Title & Trust company who was acting under orders of the federal court for the northern district of Illinois in the case of the Central American Commercial company, was assassinated June 5 at Blackriver, Triana, Honduras. The American legation at Tegucigalpa in reporting the matter to the state department stated that the assassin, who is not named, had been captured.

EX-SHERIFF BEHAN DIES

TUCSON, June 7.—John J. Behan, first sheriff of Cochise county, also of Yavapai county, and famous as a mail rider in the Indian wars, died here today, aged 68 years. He was warden of the territorial prison during President Cleveland's administration.

JUDGE HANFORD MUCH DISLIKED

Oleson Case Is Not the First One to Make Him Unpopular with the People

REFUSES TO TALK

SEATTLE, June 7.—United States District Judge Cornelius Hanford today refused to discuss the impeachment proceedings except to say that he would answer every charge made against him. He will hold court Wednesday in Tacoma and it is expected will rule there upon the petition of the United States district attorney for a re-opening of the suit instituted for the annulment of the citizenship of Leonard Oleson.

Judge Hanford has been on bad terms with labor unions since 1893 when he caused several companies of troops to be brought from the Vancouver barracks to Seattle during the American railway union strike. He aroused another storm during the Gill recall campaign of 1910 by issuing an injunction forbidding as confiscatory upon the taxpayers a recall election on a petition signed by a non-resident property owner whose share of the expenses was alleged to have been less than one cent. The circuit court of appeals dissolved the injunction.

In the first Alaska coal land trials Hanford decided against the government and was completely reversed by the supreme court. In the summer of 1910 Hanford was denounced by a mass meeting for his decision in the Renton street railway case and other decisions. He has been accused of drunkenness.

RETIREMENT OF ADMIRAL STAUNTON

WASHINGTON, D. C., June 7.—By reason of the fact that he has reached the age limit for active service, Rear Admiral Sidney A. Staunton was today placed on the retired list of the navy. For the past year Admiral Staunton has served as a member of the general board. Prior to receiving that appointment he was in command of one of the divisions of the Atlantic fleet.

LEGISLATORS WILL GET UP EARLY TODAY

House Agreed Yesterday to Convene at Six O'Clock This Morning

PAY DAY BILL SENT TO GOVERNOR

November Election Matter Still Unsettled and Cause of Much Anxiety

BISBEE REVIEW BUREAU, ROOM 5, Western Union Building, Phoenix, June 7.—(Special)—Starting in a joke the house, this afternoon passed a motion agreeing to convene tomorrow at 6 o'clock in the morning, and furthermore it tonight has been agreed to stand up to the proposition and probably for the first time in the history of any legislature there will be a 6 o'clock a. m. convening.

If the members work diligently during the entire day it would not be impossible to conclude the labors of the extra session by tomorrow night but it is probable the early morning convening will mean an early afternoon adjournment and a hold over of the session into next week.

Friends of the administration in the house looked a losing this morning when the house by a vote of 19 to 15 indefinitely postponed the purchasing agent bill. It was the horse measure which was acted upon, a similar bill from the senate having been laid on the table in the house some days ago. Consequently it is generally accepted that the action of today ends the possibility of the bill so earnestly desired by Governor Hunt.

Pay Day Bill Passed.

The senate semi-monthly pay day bill passed the house today by a vote of twenty-nine to five and was sent to the governor. By a vote of seventeen to fifteen the bill providing for preliminary plans of specifications for an addition to the capitol building failed of having a majority of the house on final passage. The prize fight bill did not get out of committee today, a majority of the members of the style and revision committee are opposed to the bill and consequently inclined to delay action.

In the senate the November election bill had the slightest. By a vote of ten to nine the house measures which unequivocally provided for a general election of all officers both state and county was amended so the senate writing in their bill which had some days ago been passed and sent to the house but was there turned down. There had been a caucus on the bill early in the day, and that it was a real caucus there was left little room for doubt. Governor Hunt honored the matter gathering with his presence.

Election Matter Troublesome.

The question is giving the majority no end of worry. On one side the republican members insist on reading into the record facts supporting their argument that the constitution of the constitution was that an election be held next November and on the other hand the socialists say that if no election is called their party will provide for an election by filing recall petitions against all the officers now in office. The tax levy bill has been completed and provides for a state tax rate of 2.5% based on last year's value of \$2,000,000 for the operation of state affairs.

MADERO'S BROTHER AMBASSADOR TO JAPAN

Appointment of President's Relative Arouses Some Suspensions

MEXICO CITY, June 7.—The permanent commission confirmed today the appointment of Gustavo Madero, brother of the president as ambassador to Japan in place of Emilio, a younger brother. Diaz, Jr., was originally named and about to sail when President Diaz resigned. The fact that all three appointees have been relatives of the president coupled with insistent talk of concessions by Mexico to Japan on the west coast has caused much comment.

Francisco Villa accused of abuse of authority and insubordination while operating with General Huerta arrived here tonight from Jimenez under heavy guard. Several hundred volunteers organized among the wealthy young Mexicans left for the front today. They range from twelve to thirty years of age.

WELLS IN TEN ROUND BOUT

UTICA, N. Y., June 7.—Matt Wells, the Fenish lightweight champion, and Bobby Wilson of Utica fought ten rounds here tonight. Wilson succeeded in keeping a good defense, and neither landed any telling blows. Wilson was the better at in-fighting.
